Dear Colleagues,

Please join us for the 31st Managing Medical Emergencies. This clinically based conference will provide you information you can apply immediately towards improving the care of your next patients. The agenda is designed by participant feedback with topics in **Emergency Medicine, Critical Care, Toxicology, Pediatrics, Trauma, Airway management** and so much more. Our expert speakers present subject matter and best practices based on the most current literature as well as their own useful pearls. Many of the talks are case-based keeping it real and related to your working environment. The conference gets rave reviews and you won't be disappointed by the selection of 14 topics.

**This is education worth having.**
